

# **Respect**

## ***Chorus***

It's the way that you treat  
All the people you meet  
And it's all how you speak when you do.  
It's the feeling you get  
When you show them respect  
Coz you know it comes right back to you.

## **Verse 1**

We can all - learn from each other,  
Listen and be ready to give.  
All the different people we can discover,  
They teach us how to live.  
They teach us how to live.

## **Verse 2**

Out at play - everybody's welcome,  
Anyone can join the game.  
Everything we do, we have to imagine  
How we'd like the same.  
How we'd like the same.

## **Verse 3**

Here at school - and in the world around us,  
Got to care for all we see.  
Friends and whanau, all that surrounds us,  
And always value me.  
I value ME.

Round 1: I wanna know, you wanna know, we wanna know respect

Round 2: Respect for you , you know it's all respect
