

# Learning Support Nomination Form

Not all children learn at the same speed. Some struggle to grasp ideas and others pick up quickly. To help us provide for children who may need support, we have developed this form that parents **may** like to fill out. It is designed to give us a better picture and help us decide whether additional support is needed.

**Has your child ever had assistance in the following areas because they struggle, or do you feel your child may need assistance in the following areas?**
